Tabletop

The perfect partner for streaming digital content
Add an HDTV antenna and get free local HD broadcasts on your system. Eliminate expensive cable and satellite subscriptions for good!

Agregue una antena HDTV y podrá ver televisión local gratuita en su sistema. ¡Elimine para siempre los costosos suscripciones por cable y satélite!

Be ready when severe weather strikes
Storms can disrupt access to cable and satellite service. Stay informed with a backup antenna to provide access to important local broadcasts.

Las tormentas pueden interrumpir el acceso a los servicios satelitalesy de cable. Manténgase informado con un acceso respaldado a los más importantes programas locales.

Compatible with NEXTGENTV

NEXTGEN TV (ATSC 3.0) is the latest broadcasting innovation that joins internet data with over-the-air broadcast signals to bring superior HD performance and advanced data functionality to your home entertainment. NEXTGEN TV signals will be stronger and reach farther, providing premium picture and sound, advanced emergency alerts and greater integration with internet services.

NEXTGEN TV (ATSC 3.0) es la última innovación en teledifusión que une datos de Internet con señales de emisión aérea para ofrecer un rendimiento HD superior y funcionalidad de datos avanzada a su sistema de entretenimiento en casa. Las señales NEXTGEN TV son más fuertes y llegan más lejos, por lo que ofrecen una imagen y un sonido superiores, alertas avanzadas de emergencia y una mayor integración con servicios de Internet.

AntennaWEB.
maximize your television reception

To determine your home's distance from TV broadcast sources in your area, scan this QR code or visit **antennaweb.org** and enter your address or zip code.

Para determinar la distancia desde la fuente/torre de transmisión de TV, visite **antennaweb.org** o escaneé este código QR y escriba su dirección o código postal.

**Antenna reception range is based on a line-of-sight signal path from the TV broadcast towers to your home. Several factors can limit reception range at your location. Some of these are mountainous and hilly terrain, obstructions in the signal path and metal construction materials. Position your antenna toward the broadcast towers for best performance.*

**La amplitud de recepción de la antena se basa en una trayectoria de la señal sin interferencias desde las torres de transmisión de los servicios televisivos hasta su hogar. Algunos factores pueden limitar la amplitud de recepción en su ubicación. Por ejemplo, terreno montañoso o con colinas, interferencias en la trayectoria de la señal y materiales de construcción metálicos. Apunte la antena hacia las torres de transmisión para obtener una mejor recepción de la señal.*
