

## Overview

The Inalsa Magnum is a counter-top induction cooktop with a toughened glass surface. It operates on a 230V AC power supply with a maximum power consumption of 1800 Watts. This manual provides instructions for its safe operation, features, and maintenance.

**Model:** Magnum

**Colour:** Black

**Included Components:** 1 induction cooker, Instruction Manual cum Warranty Card.

## Safety Information

**Important:** Please read all instructions before use.

- Use only with induction-compatible cookware made of iron or magnetic stainless steel.
- Cookware must have a flat bottom with a diameter between 12 cm and 20 cm for proper function.
- Do not use pots made of ceramic, aluminum, copper, or heat-resistant glass.
- Ensure the power cord is not damaged and the plug is properly inserted into a grounded socket.
- The glass surface can remain hot after use. Use the cool surface indicator as a guide.
- Keep the appliance and its cord away from heat, water, and other liquids.
- This appliance is not intended for use by persons with reduced physical, sensory or mental capabilities, unless they have been given supervision or instruction.

## Product Features

### Control Panel and Display

- **4-Digit Digital Display:** Shows power level, temperature, timer, and error codes.
- **Touch Control Buttons:** For power, menu selection, timer, and temperature/power adjustment.
- **7 Preset Cooking Modes:** One-touch buttons for specific cooking tasks.

### Technical Specifications

- **Power Source:** Electric, 230-240V AC
- **Power Consumption:** 1800 Watts (variable from 400W to 1800W)
- **Temperature Range:** 80°C to 270°C

- **Timer:** Off timer adjustable from 0 to 3 hours.
- **Cord:** 3-pin plug, 1.4 meters in length.
- **Surface Material:** Toughened Glass
- **Installation Type:** Counter-Top
- **Item Weight:** 2000 grams

## Special Features

- **Automatic Shut-Off:** Switches off when cooking is complete or if no pan is detected.
- **Overheat Protection:** Protects internal components during excessive use.
- **Safety Lock:** Prevents accidental activation of controls.
- **Cool Surface Indicator:** Alerts when the cooking surface is hot.
- **Anti-Magnetic Wall Technology:** Designed to reduce magnetic radiation around the unit.
- **Power Saving Technology:** Adjusts power based on vessel size and temperature.

## Use Guide

### Initial Setup

1. Place the induction cooktop on a stable, flat, heat-resistant, and dry surface.
2. Ensure there is adequate ventilation around the unit.
3. Plug the 3-pin power cord into a properly grounded 230V AC electrical outlet.

## Using Preset Cooking Modes

The cooktop has 7 preset menus optimized for common tasks:

- Pressure Cooker
- Soup
- Curry
- Milk
- Dosa/Chapati
- Deep Fry
- Water (Boil)

### To use a preset mode:

1. Place compatible cookware on the center of the glass cooking zone.
2. Press the **Power** button.
3. Press the button corresponding to your desired cooking mode (e.g., Milk, Deep Fry).
4. The cooktop will automatically set the power and temperature. You can adjust the timer if needed.

## Manual Cooking

1. Place compatible cookware on the cooking zone.
2. Press the **Power** button.
3. Use the **+** and **-** buttons to manually set your desired power level (400W-1800W) or temperature (80°C-270°C).
4. To set a timer, press the **Timer** button and use **+/-** to set the duration (0-3 hrs). The unit will shut off automatically when the timer ends.

## Safety Lock

To activate the safety lock (child lock), press and hold the **Power** button for 3-5 seconds. An indicator will show. To deactivate, press and hold the **Power** button again.

## After Use

1. Press the **Power** button to turn the unit off. Unplug the cord from the wall outlet.
2. Allow the cooktop to cool completely.
3. Clean the glass surface as described in the Care & Maintenance section.

## Warranty & Support

This product is covered by a **1-year warranty** provided by the manufacturer from the date of purchase.
