

1. Overview

The X-Rocker Shadow 2.0 is a low-profile, folding floor rocker gaming chair designed for children and junior users. It features a built-in 2.0 stereo audio system with speakers in the headrest and is upholstered in patterned faux leather.

Primary uses include video gaming, watching TV or movies, and listening to music. It is compatible with major gaming consoles via a standard audio connection.

2. Features & Components

2.1 Physical Features

- **Frame & Base:** Compact sled base designed for rocking motion on carpeted surfaces.
- **Seat & Backrest:** Generously padded with foam for comfort. Features a solid back style and is armless.
- **Upholstery:** Black and gold patterned faux leather (PU) material, designed for wipe-clean maintenance.
- **Foldable Design:** The chair can be folded for compact, space-saving storage.

2.2 Audio System

- **Speakers:** Two stereo speakers are integrated into the headrest of the chair.
- **Connection:** Uses a universal 3.5mm audio jack cable to connect to your TV, console, or other audio source.
- **Compatibility:** Works with devices that have a standard 3.5mm headphone or audio output jack.

2.3 Included Components

- X-Rocker Shadow Gaming Chair
- Integrated Stereo Speakers
- 3.5mm Audio Connection Cable (inferred from product description)

3. Specifications

Special Features	Audio Speakers, Deeply Padded, Easy to Connect, Faux Leather, Foldable
Recommended Uses	Gaming, Reading, Relaxing
Age Range (Description)	Child
Furniture Base Movement	Rock
Is Foldable	Yes
Surface Recommendation	Carpet
Indoor/Outdoor Usage	Indoor

4. Use Guide

4.1 Initial Setup & Assembly

1. Unfold the chair from its folded storage position.
2. Place the chair on a stable, level surface, preferably on carpet.
3. Locate the 3.5mm audio cable connected to the chair.
4. Plug the cable into the 3.5mm headphone/audio output jack on your TV, gaming console, or other compatible audio device.
5. Ensure the audio output settings on your source device are configured to use the external speakers/headphone jack.

Note: If your TV does not have a 3.5mm audio output, you may need a separate digital audio transmitter (sold separately).

4.2 Using the Audio System

- Volume and audio control are managed directly through your connected source device (e.g., TV, game console).
- The chair's speakers will output the game, movie, or music audio from the connected device.

4.3 Using the Chair

- Sit in the chair and use a gentle back-and-forth motion to rock on its sled base.
- The chair is designed for floor-level seating.

4.4 Folding for Storage

1. Ensure the audio cable is disconnected from your device.
2. Fold the chair according to its natural hinges to flatten its profile.
3. Store the folded chair in a closet, under a bed, or against a wall to save space.

4.5 Care & Maintenance

- **Cleaning:** Wipe the faux leather surface with a damp cloth. Do not use harsh chemicals or abrasive cleaners.
- **Storage:** Store in a dry, indoor location away from direct heat sources.
- Do not exceed the recommended weight limit for the product.

5. Safety Information

- This product is tested to British Standards EN 12520 (Furniture Strength, Durability & Safety) and BS 5852 (Flame Retardants).
- Use only on a stable, level surface to prevent tipping.
- Recommended for indoor use on carpet.
- This is a children's product. Adult supervision is advised.
- Manufacturer's minimum age: 3 years.

6. Troubleshooting

- **No Sound:**

- Check that the 3.5mm audio cable is firmly plugged into both the chair and the source device.
- Verify the audio output settings on your TV or console are set to use the external audio/headphone jack.
- Test the audio cable and source with another device to isolate the issue.

- **Chair Does Not Rock Smoothly:**

- Ensure the chair is placed on a carpeted surface as recommended.
- Check that no obstructions are under the sled base.
