

## Overview

The Rebovico USB Headset (Model 192) is a wired, on-ear communication headset designed for use with computers, laptops, tablets, and mobile phones. It features a noise-cancelling microphone, in-line audio controls, and dual connectivity via a 3.5mm jack or USB connection.

## What's in the Box

- Earphone with microphone × 1
- USB sound card with control buttons × 1

- User Manual

## Features

### Audio Performance

- **Wideband Audio:** Delivers clearer voice reproduction for more natural conversations.
- **Digital Signal Processing (DSP):** Enhances voice clarity and reduces background noise.
- **Noise-Cancelling Microphone:** Minimizes unwanted ambient noise for clearer speech transmission.
- **Acoustic Shock Protection (ASP):** Protects hearing from sudden loud noises.
- **Driver Size:** 40 mm dynamic driver.
- **Frequency Range:** 20 Hz – 20,000 Hz.

### Design and Comfort

- **Adjustable Headband:** Allows for a custom fit for different head sizes.
- **15° Tilting Earmuffs:** Earcups can tilt to better conform to the shape of your head.
- **Soft Protein Memory Foam Ear Cushions:** Made from breathable material to reduce pressure during extended use.
- **Lightweight Construction:** Weighs approximately 0.17 kg for comfortable all-day wear.
- **On-Ear Form Factor:** Earpads rest on the ears.

### Microphone

- **Noise-Cancelling Boom Microphone:** Rigid, left-sided mic that can be positioned for optimal voice capture.
- **180° Rotation:** The microphone boom can be rotated and tucked away when not in use.

### Connectivity and Controls

- **Dual Connectivity:** 3.5 mm audio jack and USB connection.
- **USB Sound Card:** Included USB sound card with in-line control buttons for volume adjustment and mute.
- **Plug-and-Play:** No additional driver installation required.
- **Detachable Cable:** The cable is detachable from the headset.

### Compatibility

- **Operating Systems:** Windows 2000/7/8/10/XP/Vista, Mac OS X, iOS, Android.

- **Devices:** Computers, laptops, tablets, mobile phones (with appropriate adapter).
- **Applications:** Suitable for call centers, business chats (e.g., Skype, Teams), online teaching, gaming, and online courses.

## Use Guide

### Connecting the Headset

1. **USB Connection:** Plug the USB connector of the included sound card into an available USB port on your computer. The headset will be automatically detected.
2. **3.5 mm Connection:** Plug the 3.5 mm jack directly into the headphone/microphone combo port on your device. If your device has separate ports, use a splitter (not included).

**Note:** For best audio quality and to use the in-line controls, connect via USB.

### Adjusting the Headset

1. **Headband:** Extend or retract the headband to fit your head size.
2. **Earmuffs:** Rotate the earmuffs up to 15° to achieve a comfortable seal around your ears.
3. **Microphone:** Position the boom microphone near the corner of your mouth for optimal voice pickup. Rotate the mic 180° upward to stow it away when not in use.

### Using the In-Line Controls

The in-line control module on the USB sound card provides the following functions:

- **Volume Up/Down:** Adjust the headset speaker volume.
- **Mute:** Toggle the microphone on and off.

### Troubleshooting Tips

- **No sound or low volume:** Ensure the headset is properly connected. Adjust the volume using the in-line controls and your device's system volume. If the volume is still low, increase the volume on your computer or mobile phone.

- **Microphone not working:** Check that the microphone is not muted (using the in-line mute button). Ensure the correct input device is selected in your operating system's sound settings.
- **Poor audio quality:** Verify the connection is secure. For USB connections, try a different USB port.

## Specifications

<b>Brand</b>	Rebocico
<b>Model Name</b>	192
