

Overview

The Cozyplayer Ultra Pain Relief Cooling Pillow is an ergonomic cervical pillow designed to support the neck, shoulders, and spine during sleep. It features a hollow concave contour with a 15-degree angle to cradle the head and maintain the natural curve of the neck. The pillow includes six unique contour zones to address pressure points and is suitable for side, back, and stomach sleepers.

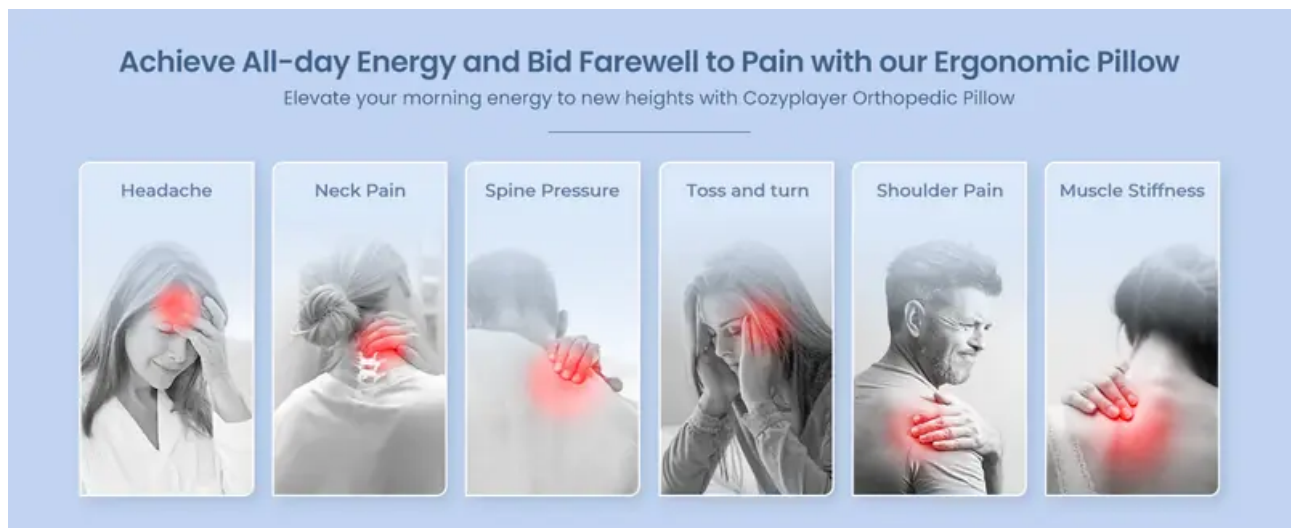

The pillow core is made of 98% breathable memory foam, which is non-toxic and odorless. It comes with a Q-Max 0.4 Arc-Chill cooling pillowcase made from a 3D mesh fabric (30% Nylon, 8% Spandex, 62% Polyester) that helps reduce skin temperature and improve airflow.

Dimensions: 23.2 × 13.4 × 5.1 inches (Queen size).

Features

1. Ergonomic Contour Design

- **Hollow Concave Surface:** Tilted at a 15-degree angle to cradle the head and support the natural curve of the neck.
- **Six Contour Zones:** Designed to support the neck, shoulders, and arms, targeting pressure points to help alleviate stiffness.

2. Cooling Technology

- **Q-Max 0.4 Arc-Chill Pillowcase:** The cover is designed to reduce skin temperature by up to 5°C (cooling effect depends on individual and ambient conditions).
- **3D Mesh Fabric:** Highly breathable material enhances airflow to help keep you cool and dry.

3. Adjustable Height

- **180-Degree Rotation:** Rotating the pillow 180 degrees changes the contour height for a different level of support.
- **Removable Bottom Insert:** Removing the bottom layer lowers the overall height for a softer feel.

4. Materials

- **Fill Material:** Memory Foam (98% breathable).
- **Cover Material:** 30% Nylon, 8% Spandex, 62% Polyester.
- **Features:** Odorless, breathable, machine-washable cover.

Use Guide

Getting Started

1. **Unpacking:** Remove the pillow from its packaging. The pillow is vacuum-sealed; allow it to expand fully. This may take up to 48 hours.
2. **Airing:** Memory foam may have a slight initial odor. Air the pillow out for 48 hours before first use.
3. **Positioning:** Place the pillow on your bed with the contoured side facing up. The higher contour is designed for side sleepers; the lower contour for back sleepers.

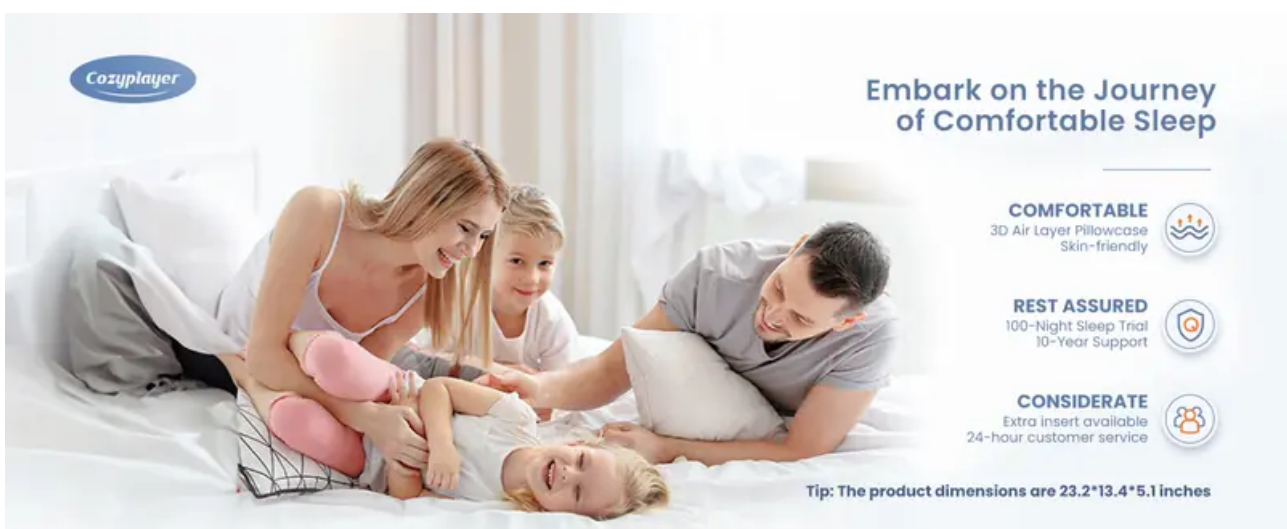

Adjusting the Height

To customize the pillow height for your comfort:

- **For a higher loft:** Use the pillow as-is with the bottom insert in place.
- **For a lower loft:** Remove the bottom insert by unzipping the cover and taking out the lower foam layer.
- **For a different contour:** Rotate the pillow 180 degrees to use the opposite side of the contour.

Sleeping Positions

- **Back Sleepers:** Position your head in the central hollow area. The lower contour supports the neck curve.
- **Side Sleepers:** Use the higher contour side to fill the gap between your shoulder and head.
- **Stomach Sleepers:** Use the pillow with the lowest possible height (remove the bottom insert) to reduce neck strain.

The advertisement features a family of four (mother, father, and two children) lying on a bed with the Cozyplayer pillow. The Cozyplayer logo is in the top left. The headline reads "Embark on the Journey of Comfortable Sleep". Three key benefits are listed with icons: "COMFORTABLE" (3D Air Layer Pillowcase, Skin-friendly), "REST ASSURED" (100-Night Sleep Trial, 10-Year Support), and "CONSIDERATE" (Extra insert available, 24-hour customer service). A tip at the bottom states: "Tip: The product dimensions are 23.2*13.4*5.1 inches".

Care Instructions

- **Pillowcase:** The cover is removable and machine washable. Wash in cold water on a gentle cycle. Tumble dry on low heat.
- **Pillow Core:** Do not machine wash the memory foam core. Spot clean with a damp cloth if necessary. Allow to air dry completely.
- **Fluffing:** Regularly fluff the pillow to maintain its shape and support.

Important Notes

Adjustment Period: Your body may need up to 2 weeks to adapt to the new sleeping position. Some initial discomfort may occur as your neck and spine adjust.

Medical Disclaimer: If you have a serious cervical spine condition, consult a doctor before using this pillow.

Specifications
