

Model: CVC-ME02

Brand: NADALY

Overview

The NADALY ME02 is a cordless stick vacuum cleaner designed for household cleaning on carpets and hard floors. It features a lightweight, wireless design and converts into a handheld vacuum for cleaning above-floor areas. The vacuum is powered by a rechargeable lithium battery and uses a bagless dust cup with a HEPA filter.

Key Features

- **3 Suction Modes:** Select from different power levels to match the cleaning task. The maximum mode provides 28kPa of suction.
- **Long Runtime:** A 2200mAh battery provides up to 45 minutes of runtime in standard mode.
- **Anti-Tangle Floor Brush:** The V-shaped roller brush is designed to prevent hair from tangling.
- **LED Headlights:** 6 LED lights on the floor brush illuminate dark areas under furniture.
- **8-in-1 Versatility:** Includes multiple accessories and a retractable tube for converting into a handheld vacuum.
- **HEPA Filtration:** A washable HEPA filter captures 99.99% of particles as small as 0.1 microns.
- **1.5L Dust Cup:** Large capacity dust container reduces the frequency of emptying.

What's in the Box

- NADALY ME02 Cordless Vacuum Cleaner (main body)
- Floor brush with LED headlights
- Retractable tube
- Accessory kit (including crevice tool, brush tool, etc.)
- Charging adapter
- User manual

Features

Suction Modes

The vacuum cleaner is equipped with 3 suction modes. Use the power button on the handle to cycle through the modes. The maximum mode provides 28kPa of suction for deep cleaning carpets and removing embedded debris.

Battery and Runtime

The vacuum is powered by a 2200mAh lithium battery. In standard mode, it provides up to 45 minutes of runtime. The battery has no memory effect, allowing you to charge it at any time without reducing its lifespan.

Anti-Tangle Floor Brush with LED Headlights

The floor brush features a V-shaped roller brush that helps prevent long hair and pet hair from tangling around the brush. The brush head is flexible, supporting 0° to 180° side-to-side movement and 0° to 90° rotation for maneuvering around furniture. Six LED lights illuminate the cleaning path to help you see dust and debris in dark corners.

Filtration System

The vacuum uses a cyclonic filtration system and a high-density washable HEPA filter. This system captures 99.99% of particles as small as 0.1 microns, helping to trap dust and allergens.

8-in-1 Configuration

The vacuum can be configured in multiple ways for different cleaning tasks. The retractable tube and included accessories allow you to convert the main unit into a handheld vacuum for cleaning curtains, beds, sofas, and other hard-to-reach areas.

Setup and Use Guide

Assembling the Vacuum

1. Insert the retractable tube into the main body of the vacuum until it clicks into place.
2. Attach the floor brush to the other end of the tube.
3. To use as a handheld vacuum, detach the tube and attach the desired accessory directly to the main body.

Charging the Battery

1. Connect the charging adapter to the charging port on the vacuum.
2. Plug the adapter into a wall outlet.
3. The battery indicator light will show the charging status. Charge the vacuum until the battery is fully charged before first use.

Operating the Vacuum

1. Press the power button to turn the vacuum on.
2. Press the power button again to cycle through the suction modes (Standard, Medium, Maximum).
3. To turn the vacuum off, press the power button until the motor stops.

Using the Floor Brush

The floor brush is suitable for cleaning hard floors and carpets. The LED headlights will automatically turn on when the vacuum is in use, illuminating the area in front of the brush. The flexible neck allows you to steer the brush under furniture and along edges.

Using Accessories

For above-floor cleaning, detach the tube and attach the appropriate accessory:

- **Crevice Tool:** For cleaning tight spaces, corners, and gaps.
- **Brush Tool:** For cleaning upholstery, curtains, and other delicate surfaces.

Emptying the Dust Cup

1. Press the release button to detach the dust cup from the main body.
2. Hold the dust cup over a trash bin.
3. Press the release latch at the bottom of the dust cup to open the lid and empty the contents.
4. Close the lid and reattach the dust cup to the vacuum.

Cleaning the Filter

For optimal performance, clean the HEPA filter regularly.

1. Remove the dust cup from the vacuum.
2. Take out the HEPA filter from the dust cup.
3. Tap the filter gently to remove loose dust, or rinse it under running water.
4. Allow the filter to air dry completely before reinstalling it.
5. Reinstall the filter and reattach the dust cup.

Note: Ensure the filter is completely dry before using the vacuum to prevent damage to the motor.

Maintenance

- Empty the dust cup after each use or when it is full.
- Clean the filter at least once a month to maintain suction power.
- Check the floor brush for tangled hair or debris and remove it if necessary.
- Wipe the exterior of the vacuum with a dry cloth.

Specifications

Brand	NADALY
Model Name	ME02 Cordless Vacuum Cleaner
