Use Guide

Using the Handheld Vacuum

1. **Attach the desired nozzle:** Choose the brush nozzle, extended hose, or long tube based on the cleaning area.
2. **Power on:** Plug the vacuum into a power source and press the power button to start.
3. **Use the LED light:** Press the independent LED light button to illuminate dark areas.
4. **Clean:** Move the nozzle over the surface to pick up dirt and debris.
5. **Empty the dust cup:** After use, open the dust cup and dispose of collected debris.

Note: The vacuum is corded. Ensure the power cord is not a tripping hazard during use.

Using the Detailing Brushes

- **Soft Detail Brush:** Use for delicate surfaces like leather seats or dashboard screens to avoid scratching.
- **Long-Hair Detail Brushes:** Ideal for reaching into crevices, cup holders, and door pockets.

- **Air Vent Brush:** Insert into air vents and move back and forth to remove dust.

Using the Cleaning Gel

1. Press the gel onto dusty surfaces such as cup holders, buttons, or vents.
2. The gel will capture dust and debris.
3. Rinse the gel with water and let it dry before reuse.

Using the Windshield Brush

1. Attach a cleaning pad to the brush head.
2. Spray glass cleaner onto the windshield or use the included spray bottle.
3. Wipe the glass in circular motions, then use the mirror wiper for a streak-free finish.

Cleaning and Maintenance

- **Washable Filters:** The vacuum includes two washable filters. Rinse them with water and let them dry completely before reinserting.
- **Microfiber Towels:** Machine washable. Avoid using fabric softener.
- **Storage:** After cleaning, dry all tools and place them back in the storage bag to prevent damage.
