

The Ambrane AeroBliss Auto is a compact, portable air purifier and aroma diffuser designed for use in car interiors. It utilizes a 4-layer filtration system to remove airborne particles and odors while also functioning as a diffuser for essential oils.

# Product Overview

## Package Contains

- 1 N AeroBliss Auto Portable Car Air Purifier
- 1 N Arroma Pad
- 1 N Charging Cable
- 1 N User Manual Card
- 1 N Rating Card

## How to Operate

- **First Press (Low Mode):** Activate the device by pressing the power button once. The indicator light and top blue light will illuminate faintly, and the fan will operate at low speed.
- **Second Press (High Mode):** Press the power button a second time to increase the fan speed to high. The indicator light and top blue light will be fully illuminated.
- **Third Press:** Press the power button a third time to turn off the device.

**Note:** Ensure the device is connected to a suitable power source via the USB cable provided.

## Product Specifications

- Type: Portable Car Air Purifier
- Filters (4): Common, Inbuilt HEPA 13, Activated Carbon, Negative Ion
- Input: 5V/1A, USB A to Type-C
- CADR: 17 m<sup>3</sup>/hr
- Removes: 99.5% of Formaldehydes, Pollen, Dust, Odor
- Filter Life: 2-8 months\*
- Fan Speed: 2 modes
- Power: 2.5W (Max.)
- Weight: 190g
- Dimensions: 68 x 165 mm
- Noise Level: <45 dB
- Features: Inbuilt blue light, aroma pad, compact and portable

\*Filter life varies with usage and environmental factors. Actual performance depends on air quality, pollutant levels, and daily operating time.

# Troubleshooting

Phenomena	Analysis	Solution
<b>Device Not Turning On</b>	Power disconnected	Reconnect the USB-A to Type-C cable and power supply
<b>Unusual Noise</b>	Debris inside the device	Gently shake the device and remove any debris
	Device not on a flat surface	Place the device on a flat, stable surface
<b>Air Not Purifying Effectively</b>	Filter may be clogged	Check and clean the filter, or replace it if necessary

## Maintenance

### Filter Care

The combined filter unit is designed for approximately 8 months of use under normal conditions. Maintenance involves:

- **Pre-Filter Cleaning:** Gently vacuum or wipe the outer pre-filter to remove large debris periodically.
- **Filter Replacement:** The HEPA and carbon filter is not washable. It must be replaced as a single unit when performance diminishes or after the recommended period. Contact Ambrane support for replacement filters.

### General Cleaning

1. Disconnect the power cable.
2. Wipe the exterior of the purifier with a soft, dry, or slightly damp cloth.
3. Do not use abrasive cleaners, solvents, or submerge any part of the device in water.
4. Ensure the unit is completely dry before reconnecting power.

## Aroma Pad

The aroma pad can be rinsed with water and left to air dry completely before re-use. Replace the pad if it becomes discolored or loses its effectiveness.

## Precautions

- To prevent electric shock, always unplug the device before performing maintenance or moving it.
- DO NOT rinse the device with water or use it near water sources or flammable materials to avoid electric shock.
- Avoid inserting any objects into the power input port or the air outlet area to prevent malfunction.
- Keep the device out of reach of children.
- DO NOT handle the power plug with wet hands to avoid electric shock.
- Use only non-acidic cleaning solutions to clean the device, as acidic solutions can cause damage and increase the risk of electric shock.

## Warranty and Support

This product is covered by a **1 Year Manufacturer warranty** from the date of purchase against manufacturing defects.

For warranty service, technical support, or to purchase replacement filters:

- **Manufacturer / Importer / Packer Contact:** Ambrane
- **Email:** Care@ambraneindia.com

Please have your model number (AeroBliss Auto) and proof of purchase available when contacting support.
