## CLEANING

With good care and cleaning, your appliance will retain its appearance and remain fully functioning for a long time to come. We will explain here how you should correctly care for and clean your appliance.

### WARNING

- Scratched glass in the appliance door may develop into a crack. Do not use a glass scraper, sharp or abrasive cleaning aids or detergents.
- The surface of the appliance may become damaged if it is not cleaned properly. Microwave energy may escape.

Clean the appliance on a regular basis, and remove any food remnants immediately.

- Do not immerse the appliance in water or clean under a jet of water.

### Cleaning agent

To ensure that the different surfaces are not damaged by using the wrong cleaning agent, observe the information below. Wash new sponge cloths thoroughly before use.

### Do not use:

		
Harsh or abrasive cleaning agents	Metal or glass scrapers to clean the door panels	Metal or glass scrapers to clean the door seal
		
Hard scouring pads or sponges	Cleaning agents with a high alcohol content	

## APPLIANCE FRONT

<p><b>Hot soapy water:</b></p> <p>Clean using a dish cloth and then dry with a soft cloth. Do not use metal or glass scrapers for cleaning.</p>	
---	--

## APPLIANCE FRONT PLATE

**Hot soapy water:**

Clean using a dish cloth and then dry with a soft cloth.

Remove splashes and patches of limescale, grease, starch and albumin immediately. Corrosion can form under these patches or splashes. Do not use glass cleaners or metal or glass scrapers for cleaning.

### **APPLIANCE CAVITY**

#### **Hot soapy water or vinegar solution:**

Clean using a dish cloth and then dry with a soft cloth. Do not use oven spray or any other aggressive oven cleaners or abrasive materials. Scouring pads, rough sponges and pan cleaners are also unsuitable. These items scratch the surface.

Allow the interior surfaces to dry completely.

### **RECESS IN THE COOKING COMPARTMENT**

#### **Damp cloth:**

Water must not be allowed to run into the appliance through the turntable drive. Dry the turntable drive with a cloth.

## TURNTABLE AND ROLLER RING

### **Hot soapy water:**

When placing the turntable back into its recess, it must engage properly.

## **DOOR PANEL**

### **Glass cleaner:**

Clean with a dish cloth. Do not use glass scrapers
