

LeeGoal Blender Bravo User Guide

Congrats ! It Was A Fantastic Start With Blender Bravo. We Will Teach You In Detail How To Use Your Blender Properly!

Model: Bravo, Bravo S, Bravo X

1. Due to long shipping times, please charge your Blender Bravo for the first time, using the included magnetic charger, until "FL" is displayed.
2. Then give your Blender Bravo a deep cleaning, see the cleaning tutorial below.
3. When using, please make sure the cup and the base are tight, otherwise the machine is refusing to work until it shows "88".
4. When putting in the ingredients you can put in the solids first and then pour in the liquid, not exceeding the max water level.

5. Double click the button and you are ready to work. It only takes 20 seconds for normal food.
6. Please wash after each use.

CHARGING

1. Direct charging with the included magnetic charging cable.
2. It takes about 2-4 hours to fully charge and can work 38 times on a full charge.
3. When your Blender Bravo is charging, "CH" will be displayed. When the display shows "FL", Your Blender Bravo is fully charged.
4. Whenever the battery is low, the display will show "LO", it's time to recharge.
5. You can use the included charging cable to charge using a USB device such as a computer, charger, or rechargeable battery.

CLEANING

Blender Bravo IPX7 waterproof, you can safely and boldly wash it, but just in case, please do not put it in the water for a long time more than 4 hours, in addition, please do not use hot water or dishwasher to clean it.

Self-cleaning

Daily use, you only need a little soapy water, and then pour water, and then it can automatically clean, very simple.

Regular Deep Cleaning

1. First you need to separate the jar from the base.
2. Do not use your hands to dismantle them, the blades are very sharp.
3. Then carefully wash them separately.
4. Of course you can also use the brush to deal with some difficult dirt, please note, do not put your hands near the blade.
5. Then put them over and let the wind dry them out.
6. Reinstall your blender bravo, pay attention to the location of the rubber ring, must be installed correctly, otherwise the machine is no way to work, our rubber ring has a special place, I believe you will not be installed wrong.
7. Another small rubber ring, you put directly into the lid on the inside.

IMPORTANT SAFEGUARDS & CAUTIONARY INFORMATION

We believe this is a simple device and you can use it whenever you want, and of course if you encounter some problems, you can find the answers here.

DOs

- DO store the Blender Bravo in a safe place. Although it has a safety lock as well as a protective cover, try to keep it out of the reach of children.

DO NOTs

- DO NOT Let children use the Blender Bravo on their own at any time
- DO NOT put your hand near the bare blade, although it will not work at this time, but be careful.
- DO NOT put your Blender Bravo in the dishwasher.
- DO NOT put your Blender Bravo in a microwave oven or freezer.
- DO NOT use hot water or alcohol-based liquids
- DO NOT put carbonated drinks, which will make the pressure inside the blender bravo becomes large, there is a danger
- DO NOT let food sit in your Blender Bravo for a long time. This can lead to fermentation spoilage.
- DO NOT loading too much food in can cause the blender bravo to go into a self-protective state.
