

Programming Your Remote Control

1. Install Batteries

Remove the battery compartment cover, insert 2 AAA batteries (not included), and replace the cover.

2. Turn On Your Device

Manually turn on the component you want to control.

3. Locate Your Brand Codes

Find the Code List that came with the remote. Locate the section for the type of device you're trying to program, and find your brand in that section. Circle the codes for your brand and keep them handy.

SOAY	89117
SOLF	93819
SONIC	29842
SONY	31912, 41012, 89613
SOLLAICA	36144
SOUNDESIGN	54711, 55514, 78313, 79513
SOVA	81213, 85613
SOYO	89613
SWYTRA	54011

If you don't see your brand listed, consult the Owner's Manual for other programming options.

4. Enter Programming Mode

Press and hold the device key you want to program for about 2 seconds, until the POWER key illuminates and stays on. Then release the key.

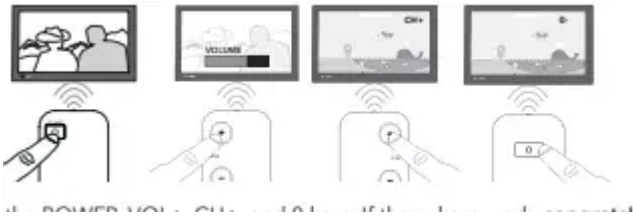

5. Enter Your Code

Enter the first five-digit code for your brand in the code list (the POWER key flashes after each digit).

6. Test the Remote

Test the POWER, VOL+, CH+, and 0 keys. If these keys work, congrats! You've finished programming for this key! If not, repeat steps 4 and 5, and enter the next code for your brand from the code list.

7. Program Additional Devices

To program the other device keys, follow these instructions again.

The Code List that's included with your remote provides codes for all major brands of home entertainment components.

Code Lists / Liste des codes / Lista de Códigos

Brand Code List / Liste des codes de marque / Lista de Códigos de Marcas
