	Road Bike	80-120 psi
Motorcycle	Motorcycle	26-44 psi
Ball	Basketball	7-9 psi
	Soccer	8-10 psi
	Football	12.5-13.5 psi

# PRODUCT OVERVIEW

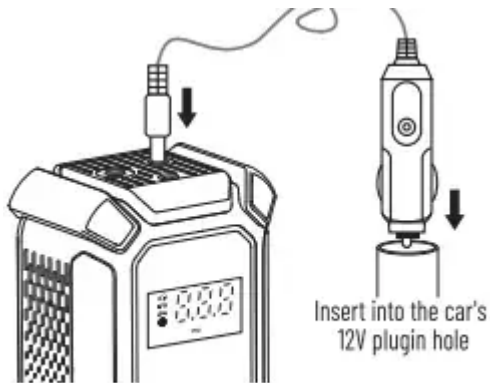

## DISPLAY OVERVIEW

## How To Use the 12V Plug

The steps are as follows:

1. Start the car
2. Insert the larger plug into the car's 12V power socket.
3. Connect the 12V jack to the socket on the top of the machine.

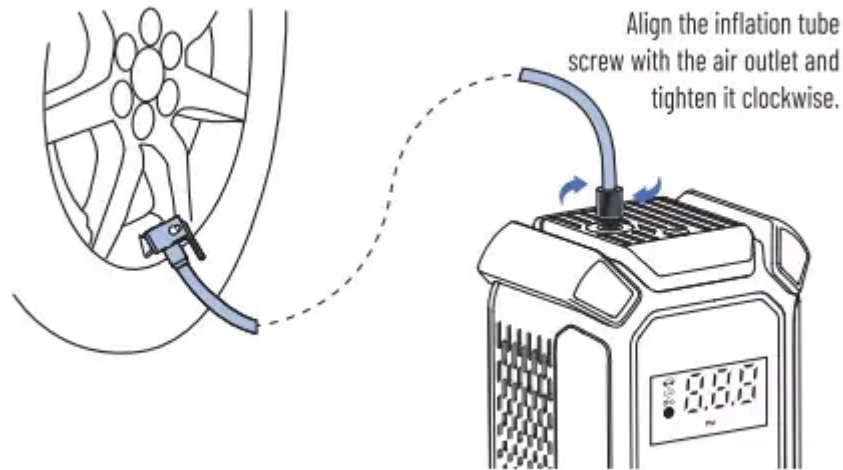

## HOW TO TURN ON/OFF THE DEVICE

To turn on: Press the power "⏻" button for 2 seconds.

To turn off: Press the power "⏻" button for 2 seconds.

## HOW TO CONNECT THE INFLATION HOSE

Align the inflation tube screw with the air outlet and tighten it clockwise.

## HOW TO INFLATE A CAR TIRE

1. Affix the nozzle to the tire valve.
2. Select the car mode "🚗" and set the desired air pressure.
3. Press the power button "⏻" to start inflating.
4. After the inflation is completed, the device will automatically stop.

## HOW TO INFLATE A BIKE TIRE

1. Affix the nozzle to the tire valve.
2. Select bicycle mode "🚲" and set the desired air pressure.
3. Press the power button "⏻" to start inflating.
4. After the inflation is completed, the device will automatically stop.

## HOW TO INFLATE A MOTORCYCLE TIRE

1. Affix the nozzle to the tire valve.
2. Select the motorcycle mode "🏍️" and set the desired air pressure.
3. Press the power button "⏻" to start inflating.
4. After the inflation is completed, the device will automatically stop.

## HOW TO INFLATE A BALL

1. Affix the nozzle to the ball needle and insert into the ball hole.

2. Select the ball mode " " and set the desired air pressure.
3. Press the power button " " to start inflating.
4. After the inflation is completed, the device will automatically stop.

## HOW TO SWITCH UNITS

This product provides four air pressure units for your choice.

The four units are: Bar, Psi, Kpa, Kg/cm<sup>2</sup>.

Long press the mode button " " to switch units.

## HOW TO TURN LIGHTS ON/OFF

1. When the device is on, press the light button " " to turn on emergency lights.
2. Pressing the light button " " again will change the flashing setting of the light.
3. To turn off the light, press the light button " " repeatedly until the light turns off.

## TROUBLESHOOTING

### Slow Inflation

1. Check whether the air hose is leaking.
2. Check whether or not both ends of the inflation hose are firmly connected.
3. Check whether the item being inflated is leaking.
4. Excessive use will slow the inflation rate of the pump. After prolonged use, let the device cool for 10 minutes before inflating.

### The device could not inflate

1. Check whether the pressure of the inflated item exceeds the preset pressure.
2. Ensure the 12V plug's fuse is securely inserted; replace fuse if necessary.
3. Check vehicle 12V plug's fuse, it should be rated at 10A or higher.
4. Ensure a strong connection between the power cord and 12V socket.

## SPECIFICATION

PRODUCT NAME: PORTABLE TIRE INFLATOR

Product Number: T105V207/T1C5V207WM

Operating Temperature: 0-45°C

DC Input: 12V / 10A

Rated Power: 120W

Air Pressure Accuracy:  $\pm 2$ psi

## **SAFETY INSTRUCTIONS**

1. This product is not a toy. Please keep it away from children.
2. Please do not put the product in fire.
3. Overheating, damage, or water exposure may increase the risk of a fire or an explosion.  
Do not leave the product in a hot car for a long time.
4. This product has a built-in DC motor, which may generate sparks during operation.  
Please do not use it in an environment with dust or explosive gas.
5. If there is abnormal noise or the temperature is too high during the inflation process,  
please turn it off immediately.
6. Do not run the equipment unattended to avoid danger.
7. Please use it in a dry and clean environment. The intrusion of sand and dust may  
damage the product. Do not wash the product with water.
8. Damage caused by failure to operate as directed in this manual and failure to follow the  
safety precautions are not covered by the warranty.
9. After long-term operation, the temperature at the connection between the air hose and  
the device will become very high. To avoid burns, please avoid touching it.

## **WARRANTY INFORMATION**

### **TWO YEAR NON-TRANSFERRABLE LIMITED WARRANTY**

To provide customers with quality shopping and user experience, we guarantee to replace or issue a refund or provide acceptable solutions to any defective products (as customers prefer) for up to 2 years from the date of purchase. Proof of purchase must be provided (Amazon order number or receipt) when making a claim to our customer support center.

The warranty is not transferable. We only provide warranty services for buyers purchased from our Amazon store and the recipients who possessed the purchase proof, and not any other purchaser or subsequent owner.

Price matching policy is not applicable. No price difference refund.

Sellers are the responsible party. Amazon allows different sellers to sell the same product, so please confirm the seller by checking the order details before contacting us.

## WHAT IS COVERED

1. Received defective or used (proof needed) products;
2. Received with missing parts;
3. Defective item under proper use.

## WHAT IS NOT COVERED

1. Purchased from non-Amazon channel or other physical stores;
2. Gift without proof of purchase;
3. Tampering/abnormal use/accidental damage;
4. Replacements and parts;
5. Installation fee/labor fee.

## MAKING A CLAIM

Gifted parts, replacements, consumable products are not covered by the 2-year warranty.

Manufacturer's warranties may not apply in all cases, depending on factors such as use of the product, where the product was purchased, or who you purchased the product from. Please review the warranty carefully, and contact the manufacturer if you have any questions.

### Warning

This content is compiled from multiple sources and is provided for reference purposes only. It may not be complete or fully applicable to all situations. If you are unable to resolve your issue, please contact the product manufacturer or an authorized service provider for official support.
