### How to make Candy Cloud SLIMYGLOOP:

1. Fill a cup with 30ml of room temperature water and the packet of Instant Snow. Using the mixing stick. stir until all water is absorbed.
2. Fill a second cup with 90ml of hot water and add in 1 level spoonful of Sodium Tetraborate. Using the provided. mix until completely dissolved. and then set aside.  
**TIP:** Make sure your water is got so the Sodium Tetraborate dissolves completely.
3. 3. Filla third cup with 100ml of room temperature water and add in 40ml of clear glue. Mix thoroughly with the stick and set aside.  
**TIP:** Make sure you are not mixing with the spoon as the Sodium Tetraborate will react quickly with the glue.
4. Add the entire paint pot into the glue solution. and mix thoroughly so the solution has a consistent color.
5. Take the Sodium Tetraborate solution from earlier and add 9 spoonfuls into the glue solution. Stir consistently until your SLIMYGLOOP forms.  
**TIP:** The solution will change throughout the mixing process. Don't worry if it seems too rubbery at first. The Instant Snow will help soften your SLIMYGLOOP.

6. Remove the SLIMYGLOOP from the cup. and spread it out in your hand. Add one spoonful of the Instant

Snow and fold it in. Continue to fold in one spoonful at a time. making sure to combine fully after each spoon. In total. you will add 20 spoonfuls.

**TIP:** If your SLIMYGLOOP is too sticky. you can add more activator. Be sure to only add a few drops at a time to avoid over activating the slime.

**TIP:** If the SLIMYGLOOP is over activated. you can add more Instant Snow to help soften it.

## Storage:

For optimal use, once you are done playing with your SLIMYGLOOP, store it in one of the sealed containers provided. If you have more than two SLIMYGLOOP creations, you can also use a resealable plastic bag. If you leave your creation out. it will dry out faster!
