

## INSTRUCTION MANUAL Fitness Tracker

### TIPS FOR USE:

- KoreTrak requires 20 seconds to get a heart rate, blood pressure, or blood oxygen reading.
- For optimal performance, it is recommended to wear KoreTrak on your left wrist.
- To keep KoreTrak clean, wipe it down with a damp cloth once a week or after physical activities.

## FASTENING THE WRISTBAND:

1. Hold KoreTrak in place on the outside of your wrist.
2. Tighten the wrist band until you feel it has a firm grip around your wrist, but not so tight that it cuts off circulation, then fasten the buckle.
3. To remove the wrist band, loosen pin buckle.

## CHARGING THE BATTERY:

1. Remove the bottom wristband to access the charging connector with a twist and pull motion (refer to diagram **1**)
  - You can find the connector side under the KoreTrak marked “USB” with an arrow pointing at it, the USB metal contacts should be visible (refer to diagram **2**).

2. Plug the charging connector into your computer's USB port or a wall socket with a USB adapter. Make sure your power source is at least 5V.

3. If KoreTrak does not charge after inserting the connector, it may be oriented upside down. Unplug KoreTrak, flip it and reinsert the USB connector. When properly connected, KoreTrak will vibrate and will start charging.
4. Allow KoreTrak to charge for up to 2 hours or until the battery indicator on the home screen is full.
5. To reattach the bands, slide the wrist band pieces onto either side of the KoreTrak.
6. Press firmly until you hear and feel a click.

Note: You can locate the USB connector by looking at the back of your KoreTrak, there you will find markings of USB and an arrow. Make sure the KoreTrak USB connector contacts are properly inserted to the USB port of your computer or USB adapter (refer to diagram **2**). If the KoreTrak screen still does not light up immediately after being plugged in properly the battery may be completely drained. Let it charge for at least 5 minutes, the screen should light back up within this time. If KoreTrak still does not light up or charge after all these steps, please contact customer support.

No charging dongle required.

## **INSTALLING THE KORETRAK APP:**

- Download the KoreTrak App onto your iOS or Android smartphone by scanning the QR codes below, or by searching “DayBand” in the App Store or Android ios Google Play Store.
- Device requirements: iOS 8.0 and above; Android 4.4 and above.

## KORETRAK IMPORTANT SAFETY INFORMATION

To prevent personal injury or damage to your KoreTrak, read the following guidelines carefully to ensure proper usage:

1. Avoid exposing KoreTrak to chemicals, sudden impacts, and extreme heat.
2. When cleaning KoreTrak, do not use any solvents that contain alcohol.
3. Do not attempt to disassemble KoreTrak or remove the battery.
4. If you feel any discomfort while wearing KoreTrak, loosen the wristband.
5. It is not meant to diagnose or treat medical conditions.

**Warning: This device is not a toy. Keep away from children.**

Although KoreTrak's mechanism is cutting edge, there are inherent limitations with the technology that may cause some of the sensor readings to be inaccurate under certain circumstances. These circumstances include, but are not limited to, the user's physical characteristics, skin perfusion, permanent or temporary changes to your skin, the fit of the device, and the type and intensity of the motion or activity being accomplished. If the sensor appears inaccurate, adjust the position of the device on your wrist and ensure that there are no obstructions, such as, body hair, dirt, tattoos, or other objects between the sensor and your wrist.

**Warning**

This content is compiled from multiple sources and is provided for reference purposes only. It may not be complete or fully applicable to all situations. If you are unable to resolve your issue, please contact the product manufacturer or an authorized service provider for official support.
