Charge

Charging the Battery

This product has a built-in battery. Make sure to charge the battery sufficiently before use. You can find the power socket at the bottom of the product.

1. Connect the power cord to the power input terminal
2. Connect the power plug to an outlet.

Checking Battery Status

Charging Status

When the battery of the product starts charging, you can see the charging status in the battery LED.

Battery LED	LED Status	Battery Status
	Blinks in green for 15 seconds	Charging is complete.
	It is red.	Charging is in progress.

Use Status

When the product is turned on, the battery status is displayed on the battery LED for 3

seconds. If you press and hold the Power button for 2 seconds with product on, you can see the battery LED for 3 seconds depending on the battery status.

Battery LED	LED Status	Battery Status
	Turns on in green.	The battery level is above 70 %.
	Turns on in orange	The remaining battery level is 70 to 10 %.
	It blinks red continuously and you can hear a notification sound once.	The battery level is below 10 %, and the battery needs to be charged.

Connecting to Bluetooth

Connecting Smartphone to the Speaker via Bluetooth

You can play music files stored on a Bluetooth device, or run music apps to enjoy the music with this product.

Please check the following first.

- The following are the Bluetooth specifications of the product.
 - Version: 4.0
 - Codec: SBC, AAC
- How to connect the device to the product may differ depending on the type and model of the Bluetooth device. For information on how to connect the product, refer to the user manual of the Bluetooth device to be connected.

Select the [Bluetooth] menu on the smartphone's Settings screen. The menu access method may differ depending on the smartphone manufacturer and model.

1. Press the Power  button of the product and turn it on. Press and hold the

Function  button on the product until you hear a notification sound. Bluetooth LED blinks for 60 seconds.

2. Tap the Setting  /  button on your smartphone and select

<Android phone>

<iPhone>

3. Turn on the Bluetooth function. ( Off >  On)

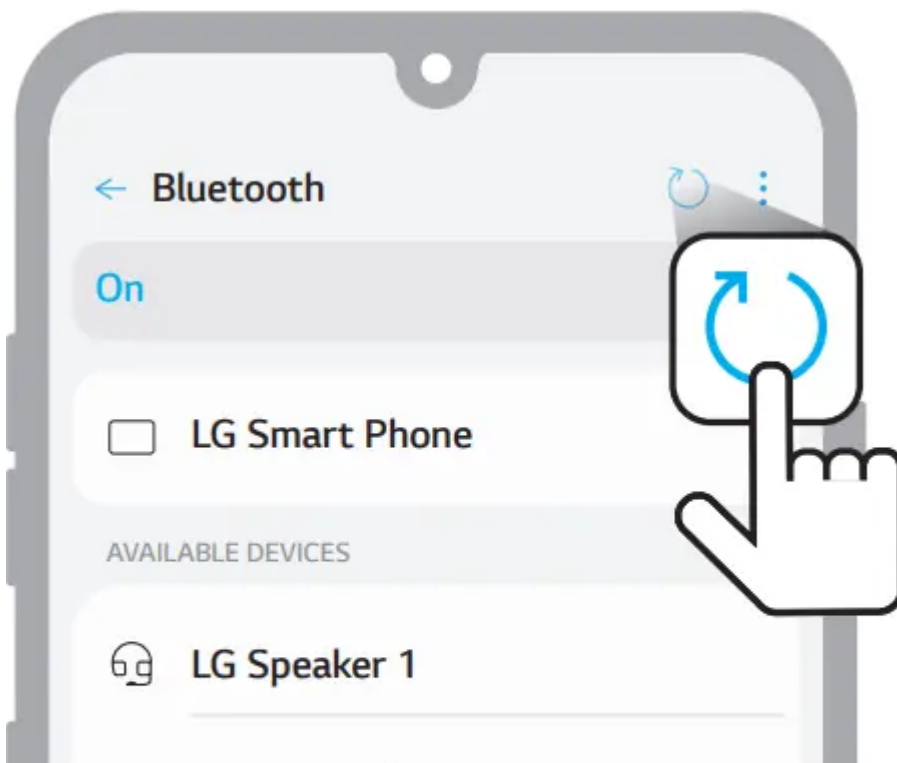

4. You will see a list of connectable devices on the smartphone screen. Find and tap the name "LG-RP4(XX)".

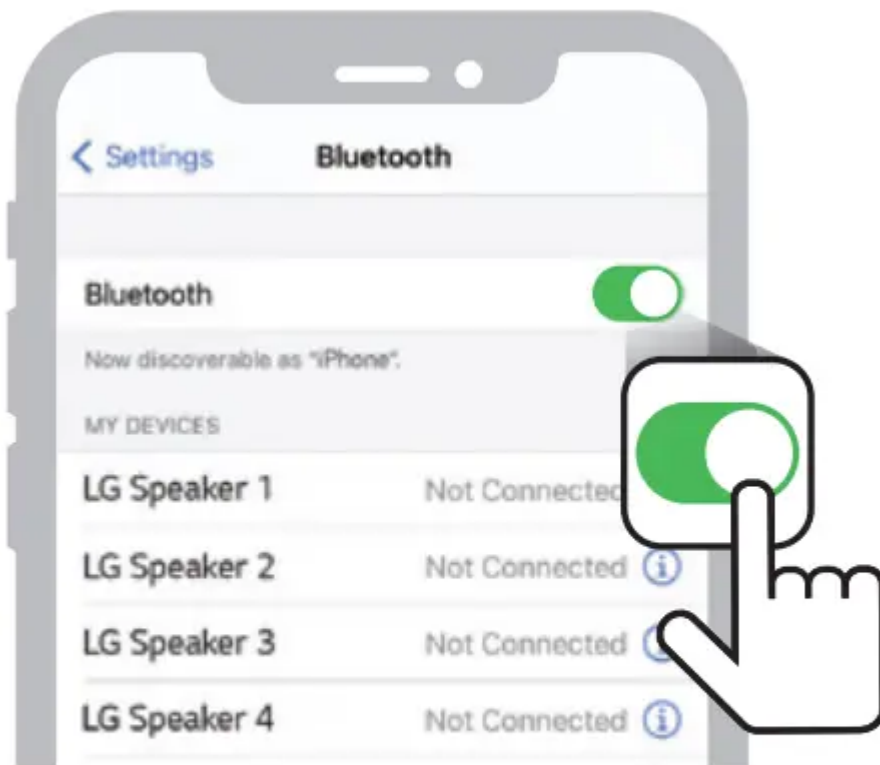

5. Once the smartphone is connected to product via Bluetooth, the Bluetooth LED will turn on.

6. If LG-RP4(XX) does not appear on the list, tap on the Refresh  icon on an Android phone or restart Bluetooth on an iPhone.

<Android phone>

< iPhone >

7. Select and play a track on the smartphone.

Connecting Two Bluetooth Devices to the Speaker

Pairing (Connecting) Multiple Phones

1. Connect the product and a Bluetooth device first. (→ See “Connecting Smartphone to the Speaker via Bluetooth” on page 12.)

2. Press and hold the Function  button on the product until you hear a notification sound. Bluetooth LED blinks for 60 seconds

3. Connect an additional Bluetooth device to the product within 60 seconds. (→ See “Connecting Smartphone to the Speaker via Bluetooth” on page 12.)

4. When the product is connected to two Bluetooth devices, the Bluetooth LED turns on.

Connecting to USB

Connecting the product to a USB storage device

1. Open the back cover of the product and plug the USB storage product into the USB terminal.

- The product cannot play any devices connected with a USB storage device hub or a USB storage device cable.

- The product cannot be connected to a USB storage device, USB type MP3 player or card reader that requires a separate device drive to be installed.
