2 Charging Dock/Adapter

3 Dust Bin

Install 2 AAA batteries before using the Remote Control for the first time. Ensure the positive and negative ends are facing the correct polarity direction as marked in the battery compartment. Please aim the Remote Control directly at the Robot within 5m/16ft when pressing.

1. Auto Cleaning

Press "Auto" on the Remote Control to start cleaning in Auto mode when A900 is turned on.

2. Suction Selection

In Auto mode, press the "⊕" on the Remote Control repeatedly to select the three suction power levels.

3. Control Cleaning Direction

You can press the directional buttons on the Remote Control to move Robot in standby mode .

(* ^ " Move forward / " v " Move backward / " < " turn left / " > " turn right). In other modes the directional buttons do not work in order not to disturb its automatic routing.

4. Start/Stop

Press "Pll" on the Remote Control to start/stop cleaning.

5. Spot Cleaning

Press "⊙" on the Remote Control to start cleaning in Spot mode. A900 will stop cleaning after 2 minutes or less.

6. Edge Cleaning

Press "Ⓜ" on the Remote Control to start cleaning in Edge mode.

7. Return the Charging Dock

Press "Ⓜ" on the Remote Control to start recharging mode.

8. Wi-Fi Pairing

Press "📶" on the Remote Control about 3 seconds to start Wi-Fi Connecting.

Specifications

Product Model	A900

Charging Type	Auto Recharge
Dust Bin Capacity	0.5L
Cleaning Mode	Auto, Edge, Spot, Schedule
Adapter Input Voltage	AC 100 ~ 240V (EN) , AC 100~120V (USA)
Rated Power	28W
Noise	<60dB
APP Control	Yes
Boundary Strip	Yes

Using Your Amarey A900

Important Tips Before Using A900

Remove power cords and small objects from the floor that may entangle A900

A900 is not suitable for use on long-pile carpet . Before using Robot near a short pile rug with tasseled edges, please tuck the fringe underneath.

Keep A900 away from spaces lower than 3 inches to prevent A900 from getting stuck. If necessary, place a barricade to block off the area or elevate your appliance.

Anti-drop sensors prevent A900 from tumbling down stairs and steep drops. They may work less effectively if dirty or used on reflective/very dark-colored floors. It is recommended to apply the Boundary Strips to block off areas where A900 may fall.

Preparations

1. Position the Charging Dock on a hard level surface and against a wall.

2. Ensure the place is an open & uncluttered area leaving at least:

- 6 feet in front of the Charging Dock.
- 3 feet on both sides of the Charging Dock.

3. Connect the round connector of the adapter into the power socket on the Charging Dock and the other end into a wall outlet.

4. Attach Side Brushes to the bottom of Robot by pressing a brush into each slot until you hear the voice "click".

5. Turn on the Main Power Switch at the bottom of Robot. After Robot says "I am ready now" it is ready for use

Charging Robot

Place Robot onto the Charging Dock, ensure the metal Charging Contacts Points on the Charging Dock match up with those underneath Robot. If successful you will hear a “peep”. Please charge your Robot for 3.5 hours at least until the light turns blue.

Clean Mode

1. Auto Cleaning

Press the  button on Robot (or press the  button on Remote Control or through APP) and Robot says “Start Auto Cleaning”. Robot intensely cleans with its automatic routing. Before cleaning, ensure Robot's  button lit blue and it is in standby mode. If not, please wake it up firstly by press the  button on Robot or the  button on Remote Control.

2. Spot Cleaning

Press the  button on Remote Control or through APP and Robot says “Start Spot Cleaning”. Robot intensely cleans a localized area. After cleaning is finished, Robot will keep in standby mode.

3. Edge Cleaning

Press the  button on Remote Control or through APP and Robot says “Start Edge Cleaning”. Robot intensely cleans along walls and around furniture legs. After cleaning is finished, Robot will keep in standby mode.

4. Schedule Cleaning

You can only set schedule cleaning by APP. Please set schedule cleaning by following the APP Operation Guide.

Auto Recharge

When the battery level is low, Robot will say "Battery is Low, Returning to Charging Dock" and then return to the Charging Dock to recharge.

Press the  button on Remote Control or through APP, Robot will say "Returning to Charging Dock" and then return to the Charging Dock to recharge.

Power Off

Turn off the Main Power Switch at the bottom of Robot if you will not use Robot for a long time.

Use the Boundary Strip

You can cut the boundary strip to a proper length.

Lay the boundary strips (flat side down) on the floor to block off the space: the Robot recognizes the strips and avoids the area.

Tips: You can use the tape to keep boundary strips flat on the floor.

Amarey A900 Robot Maintenance

To keep Robot running at peak performance, perform the following care procedures.

Dust Bin

Press Bin Release Button to remove it. Open Dust Bin's door to empty it.

Filters

1. Pull the filters out from the Dust Bin. Clean the Dust Bin and filters with provided Cleaning Tool

2. Put the filters back together in the Dust Bin

Tips: Clean the filter once every week and replace it usually every 1-2 months. Pre-filter and sponge filter are washable.

Rolling Brush

1. Take out the Rolling Brush, clean the vacuuming aisle by a cloth.

2. Clean the Rolling Brush. Cut down the hair wadded in the Rolling Brush with the knife of Cleaning Tool.

Side Brush

Cut down the hair wadded in the Side Brush with the knife of Cleaning Tool and use a cloth to remove the dust from the brush.

Tips: Clean the Rolling Brush and Side Brush once every week and replace the Rolling Brush usually every 6-12 months and the Side Brush every 3-6 months.

Swivel Wheel

Pull out the Swivel Wheel, then clean the Swivel Wheel with a cloth.

Sensors

Use a cloth to clean sensors to maintain the peak performance.
