Make sure that meats are grilled to safe temperatures.

An essential grilling tool.

The Cuisinart Digital Folding Probe Thermometer makes it easy to see when grilled meats are at ideal temperatures for serving. It features an easy to read LCD display and a five inch stainless steel probe that delivers new temperature updates every second. Takes the guesswork out of grilling.

Instant temperature readings.

Get instant temperature readings up to 500° F or 260° C. The digital LCD display reads internal meat temperatures within seconds of insertion. The probe is long enough to fit into deep cuts of meat and folds securely into the base for protection during storage. Easy touch buttons sets the light control and Fahrenheit or Celsius preferences.

Includes a built-in LED.

A built-in LED light makes the Cuisinart Digital Folding Probe Thermometer ideal for getting temperature readings in low light settings. The rubberized housing makes it easy to grip and manipulate. This reliable thermometer makes an ideal gift for anyone who loves to grill.
