

PRODUCT DETAILS

Gift Box UPC: 639131019119

Master UPC: 10639131019116

Master Case: 2

Unit Weight with Stand: 5.06 lbs.

Unit Weight without Stand: 4.57 lbs.

Giftbox Weight: 6.78 lbs.

Unit Dimensions with Stand:

L 17.20 x W 6.49 x H 11.57 in.

Unit Dimensions without Stand:

L 17.20 x W 2.00 x H 11.57 in.

Giftbox Dimensions:

L 19.48 x W 4.05 x H 12.79 in.

FEATURES & SPECIFICATIONS

- 18.5" LED HDTV
- Built-in Dual Tuners
- HDMI Input Compatible
- HDTV 1080p/1080i/720p/480p/480i
- Built-in USB Input Compatible Allows You to Play Photos and Music
- Aspect Ratio: 16:9
- Resolution: 1366 x 768
- Brightness: 180cd/m²
- Contrast Ratio: 600:1
- Response Time: Max. 5ms
- Viewing Angle: 90° (H), 65° (V)
- Digital Noise Reduction
- Audio Output Power: 2 x 3W
- Color Capacity: 16.7 Million Colors
- Picture Mode: User, Standard, Dynamic & Mild
- Sound Mode: Standard, Music, Movies & User

- Separate Bass, Treble and Balance Controls
- Sleep Timer Function
- Multi Language On Screen Display
- AC/DC Compatible

GENERAL:

- Adapter Input: AC 100-240V, 50/60Hz
- Power Input: DC 12V
- Maximum Power Consumption: 24W
- Input Terminals Compatible: HDMI/ RF/USB/PC Audio/CVBS & Audio L/R
- Output Terminals Compatible: Headphones & Coaxial Out
- Wall Mountable Design, VESA Compliant
- Accessories: Remote Control, AC Power Adapter and User Manual

Accessories: Remote Control, AC Power, Adapter, and User Manual

Features and specifications, measurements and weight may be subject to change without prior notice

FAQ - Frequently Asked Questions

Hey, does this TV have a coaxial input? For regular cable?

Hi yes it has coaxial connection . It can be connected for regular cable too. Take care

Is this TV arc compatible? I have a sony 7.1 home theater receiver, will i get surround sound through my receiver with this tv?

I can't answer that question, since I literally threw this TV in the trash three days after it was delivered. It's just plain junk. The sound went after watching 2 videos. It started making this screechy, loud nasty sound that couldn't be turned down with the remote. I had to shut the TV off. It happened over and over again. I couldn't get through another DVD. I didn't want to bother with the warrantee since it was a total lemon.

Is this TV good for video games ?

It's a nice personal size for games and has all the inputs necessary.

Is there an HDMI port?

Yes, * HDMI Input Compatible and * HDTV 1080p/1080i

Can the TV speakers be shut off so the source of the audio can be listened to using headphones ?

I believe when you plug in the headphones jack it automatically shuts off the tv speakers , i just added a 25ft male to male mini stereo jack cable to connect a bluetooth speaker in a 20ft animal rescue adoption bus and it sounds amazing

Does this work well without cable ?

It all depends on your local reception and where the TV is located in the house in order to pick up a signal. I use an indoor antenna, but only receive several channels since I live close to mountains and have poor reception without a dish or cable. Other areas, with an antenna are more successful. When the signal is strong the picture is good.

I want to program my Direct tv remote to run the tv functions but DTV setup doesn't include SuperSonic. Does anyone know what brand I can chose & code ?

do a codesearch by volume, with tv on, volume up but muted:

1. tv
2. press and hold MUTE & SELECT, wait for two blinks, release
3. enter 9 9 1
4. enter 1
5. press and release VOL UP key
6. point the remote at the tv, keep pressing and releasing the CH UP key, if and when the volume changes
7. press SELECT to lock in code.

The dimensions are listed as 15.9 x 13.7 x 5.5 inches. Is the width confirmed to be 15.9 inches?

I don't understand the height of this television... INCLUDING stand. Is it 13.7" high total — or is there an additional 5.5" for the stand?

do you have to connect this 13" tv to cable or will a good digital antenna work?

Yes, I have it connected to an antenna and it works fine. External HP speakers really help the volume and sound quality.

can you play video through the USB?

No. Says it's for photos, music and software updates. Lots of other connectors for video though. PC, coax, composite, and rgb I think. Not a smart TV so don't think there is a processor to play the video from a USB. I use it with a DVD player and with an Apple TV. Run it off 12 volts on my boat. Over the air is ok, but a boat is a tough test of that.

does it require programming or will it be ready to plug in and watch? Does it come with a remote?

Yes it comes with remote. Select auto programming and it takes care of itself

Can this tv be mounted under a cabinet without the stand on a hang down bracket for a small TV?

Yes four mounting holes on the back of the TV for a flip down bracket. The stand is removable for use with the flip down bracket.

can this TV accept Comcast cable ?

The tv works with Comcast cable but will not turn on and off with the Comcast remote. Need to use the tv remote to turn it on and off.

does this have a RCA video input and if so is it in back?

Yes, there are many connections on the back. It has two HDMI inputs. It has a video out.

It has VGA (RCA type push on colors green, blue and yellow) . And finally, the RCA inputs I use for DVD input, colors yellow (video), white Left audio and red right audio. By the way, thiis is a 12 volt TV that comes with a 120 volt adapter and a direct connect 12 volt cord with cigarette lighter type plug.

the 12 volt plug doesn't work, where can i get a replacement for it?

That's because it no longer has ac/dc feature. It has a hardwired 110v plug with NO 12v input and is still advertised as 12v compatible from seller!!! I Contacted AMAZON about this problem 1/15/22.
